

OREGON NOTARY PUBLIC SERVICES

BE PREPARED FOR CARE

MOBILE NOTARY SERVICES
SPECIALIZING IN CARE TRANSITION ESTATE DOCUMENTS

WHO I SERVE

My services are a best match for folks that know what documents they need and can source them with minimal guidance. Signers should be familiar with the document and understand its intent. For folks that need more guidance or are beyond capacity to consent, I'm happy to provide referrals to local estate and elder law attorneys.

WHAT I DO

Assist folks in preparing for supported living by finalizing Power of Attorney, Advance Healthcare Directive documents and more, often required by care service providers for admission.

- Notarize documents by verifying identity and capacity to provide informed consent.
- Flexible appointment times, including weekends and evenings.
- Mobile services - I come to you, whether it's at home or a residential care setting, medical office, or cafe.
- Referral to additional resources and service providers as needed.

I look forward to connecting with you!
